Clients may experience visions, messages, sensations of hot and cold, become very emotional or experience a wide range of emotions. Courtney creates a channel in which all negative energy is drawn through her and grounded down back into the universe. Every cleansing is unique to the individual and may require other tools or a different method. Courtney does her best to accommodate every client and guarantees that you will be feeling great!

These sessions are meditative sessions where the Courtney and client will do energy channeling and meditation to rid the client of any negativity. The candle used in these sessions is yours to keep!

If you are interested, please book Courtney through phone or email, moonbeamesence@yahoo.com for a cleansing. Appointments are on a first come first serve basis. You will be set up with a specific appointment to see Courtney.

Courtney only accepts cash or credit card on the day of service. Cancellations and rescheduling must be done at least 24 hours in advance.

After the first cleansing please drink plenty of fluids and do not be surprised if you have the urge to sleep or sleep more than your normal pattern. Your body is re-adjusting to the change of energy. This is normal.
